

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 - 2026

Class: TE- AIML

Sem: 6

Project Title: CivicMind - AI Based Centralized Municipal Grievance Management System

Team Member 1: (Team Leader)

Name: Umesh Ashok Phulare

College ID: 24206002 Email: 24206002@apsit.edu.in

Mobile No: 8425091691

Team Member 2:

Name: Vinay Vikas Patil

College ID: 23106072 Email: 23106072@apsit.edu.in

Mobile No: 8329837045

Team Member 3:

Name: Pranay Prakash Bhore

College ID: 24206004 Email: 24206004@apsit.edu.in

Mobile No: 8237488172

Team Member 4:

Name: Ved Vishal Sawant

College ID: 24206001 Email: 24206001@apsit.edu.in

Mobile No: 8879209938

Prof. Radhika B.

Project Guide

Radhika B.
02/04

Prof. Yogeshwari Haldas

Mini- Project Coordinator

Dr. Jaya Gupta

Head of Department

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 9/01/26 to 15/01/26

Progress Planned	Progress Achieved
• Finalize project topic and define core problem statement	• Finalize "Civic Mind" as project title with scope defined
• Identify relevant SDG goals	• Mapped project to SDG 11 aligned with project objectives and SDG 16.
• For team roles and responsibility	• Complete team role allocation
• Prepare initial project synopsis for approval	• Obtained Synopsis approval from project guide.

Guides Review: Topic finalization w.r.t. SDG Goals

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

Name and Signature of Team Member 2: Vinay Pati - Vinay Pati

Name and Signature of Team Member 3: Priyanka Bhere - Priyanka Bhere

Name and Signature of Team Member 4: Ved Sawant - Ved Sawant

Name of Project guide: Prof. Radhika B.

Signature of guide with Date: R.B. Sawant
02/04

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE-AIML

Sem: 6

Date: From 16/01/26 to 22/01/26.

Progress Planned	Progress Achieved
• Conduct comprehensive literature survey on existing system	• Reviewed 5 research papers on AI-based complaint management
• Study AI/ML application in municipal complaint manag	• Studied MLP techniques for complaint classification
• Analyze limitation of current systems.	• Identified limitations: no urgency, manual routing, poor transparency.

Guides Review: Literature Survey was conducted successfully

Signature

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

Name and Signature of Team Member 2: Vijay Patil - Vijay Patil

Name and Signature of Team Member 3: Pranay Bhere - Pranay Bhere

Name and Signature of Team Member 4: Ved Sawant - Ved Sawant

Name of Project guide: Prof. Radhika B.

Signature of guide with Date: Radhika B.

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE-AIML

Sem: 6

Date: From 23/01/26 to 29/01/26.

Progress Planned	Progress Achieved
Finalize system architecture and technical stack.	Finalized Reactjs, Nodejs, MongoDB as core tech stack.
Design high level dtd.	Select FastAPI for integration
Research available NLP and CNN models for implementation	Researched NLP and CNN architectures for prototype.

Guides Review: Detailed discussion was conducted on system architecture diagram

Signature

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

Name and Signature of Team Member 2: Vinay Patil - Vinay Patil

Name and Signature of Team Member 3: Pranay Bhere - Pranay Bhere

Name and Signature of Team Member 4: Ved Sawant - Ved Sawant

Signature of guide with Date: Radhika B.
02/01

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 30/01/26 to 5/02/26.

Progress Planned	Progress Achieved
• Design wire frames for citizens portal interface	• Completed low-fidelity wireframes for citizen dashboard.
• Design wireframes for municipal corporation portal	• Designed municipal portal with employee assignment interface.
• Create complaint filing flow with location and image capture	• Finalized complaint filing flow with live camera and location.

Guides Review: _____

Design flow review for miniproject was conducted successfully

Name and Signature of Team Member 1: Umesh Phulao - Umesh Phulao

Name and Signature of Team Member 2: Vinay Patil - Vinay Patil

Name and Signature of Team Member 3: Ranay Bheru - Ranay Bheru

Name and Signature of Team Member 4: Jed Sawant - Jed Sawant

Name of Project guide: Prof. Radhika B.

Signature of guide with Date: Radhika B.
02/04

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 6/02/26 to 12/02/26

Progress Planned	Progress Achieved
• Set up development env for frontend.	• Installed React.js with tailwind CSS configuration.
• Implement citizen reg and login module.	• Built authentication pages with JWT token integration.
• Develop complaint filing form with image upload.	• Created dynamic complaint form with validation.
• Research navigator. geolocation API.	• Completed research on navigator geolocation API implementation.

Guides Review: Low-level designing & frontend
setup was executed successfully

Signature

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

Name and Signature of Team Member 2: Vinay Patil - Vinay Patil

Name and Signature of Team Member 3: Ranay Bhere - Ranay Bhere

Name and Signature of Team Member 4: Ved Sawant - Ved Sawant

Name of Project guide: Prof. Radhika B.

Signature of guide with Date: Radhika B.
02/06

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE-AIML

Sem: 6

Date: From 13/02/26 to 19/02/26

Progress Planned	Progress Achieved
Implement navigator.geolocation for real time location capture.	Successfully integrated navigator.geolocation API to fetch conglat.
Integrate live camera functionality for image capture.	Implement live camera capture using React Webcam Library.
Develop complaint preview and submission interface	Built complaint preview modal with editable fields.

Guides Review: Integration of frontend & Backend
Services was executed successfully

Signature

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

Name and Signature of Team Member 2: Vinay - Vinay Patil

Name and Signature of Team Member 3: Ravi - Ravi Bhere

Name and Signature of Team Member 4: Ved - Ved Sawant

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 20/02/26 to 26/02/26

Progress Planned	Progress Achieved
• Set up backend server with Node.js and Express	• Establish Node.js server with Express framework.
• Create REST API for complaint submission.	• Create POST/complaint API with image & loc data.
• Implement MongoDB connection and data model	• Connect MongoDB and verified data insertion.
• Develop API for fetching complaint status.	• Build GET/complaint/:id API for status tracking.

Guides Review: Implementation of front End & Backend services was executed successfully

Signature

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

Name and Signature of Team Member 2: Vinay Putil - Vinay Putil

Name and Signature of Team Member 3: Puranay Bheer - Puranay Bheer

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 27/02/26 to 5/03/26.

Progress Planned	Progress Achieved
· Research and select appropriate NLP approach for prototype.	· Implement NLP pipeline using NLTK for preprocessing
· Implement basic text processing for complaint description.	· Created keyword-based sector classifier for road water, electric.
· Develop sector classification logic using keyword based approach.	· Develop urgency detection using emergency keywords.

Guides Review: Research & creation of datasets for NLP models

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE-AIML

Sem: 6

Date: From 6/03/26 to 12/03/26.

Progress Planned	Progress Achieved
• Select pretrained CNN model for image verification.	• Select pre-trained CNN model for image classification.
• Set up image processing pipeline for complaint image.	• Set up image preprocessing pipeline using opencv.
• Validate image relevance using basic CNN inference.	• Implemented image relevance verification for complaint types.
• Integrate CNN model with background API	

Guides Review: Selection of image processing algorithm

Signature

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

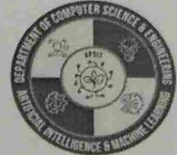

Name and Signature of Team Member 2: Vinay Patil - Vinay Patil

Name and Signature of Team Member 3: Panay Bhere - Panay Bhere

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 13/03/26 to 19/03/26.

Progress Planned	Progress Achieved
Design department and employee management module	Create department mapping based on sector classification
Implement rule based complaint routing to dept	Implemented automatic routing based on predicted sector
Develop employee workload tracking system.	Built employee dashboard showing assigned complaints.

Guides Review: Implementation of Dashboard
was executed successfully

Signature

Name and Signature of Team Member 1: Umesh Phulare - Umesh Phulare

Name and Signature of Team Member 2: Vinay Patil - Vinay Patil

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 20/3/26 to 26/3/26

Progress Planned	Progress Achieved
• Develop real time complaint tracking dashboard for citizens.	• Built live tracking interface with complaint status display.
• Implement complaint status update functionality	• Implement complaint status update workflow.
• Create notice board module for municipal announcements.	• Create admin notice section for official announcements.

Guides Review: Implementation of Dashboard was executed successfully

(Approved by AICTE New Delhi & Govt. of Maharashtra, Affiliated to University of Mumbai)
(Religious Jain Minority)

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)

Academic Year: 2025 - 2026

Class: TE-AIML

Sem: 6

Date: From 27/3/26 to 2/4/26

Progress Planned	Progress Achieved
Conduct unit testing for frontend components.	Completed unit testing for all react components.
Conduct unit testing for backend API	Tested all REST APIs using postman.
Perform integration testing for end-to-end workflow.	Perform Integration testing for complaint filing to resolution flow.
Debug and resolve identified issues.	Resolved bugs including geolocation errors & API connectivity

Guides Review: Unit testing was
conducted successfully

Signature

(ARTIFICIAL INTELLIGENCE & MACHINE LEARNING)**

Academic Year: 2025 – 2026

Class: TE - AIML

Sem: 6

Date: From 3/4/26 to 9/4/26

Progress Planned	Progress Achieved
• Prepare final project doc and report.	• Completed comprehensive report with all sections.
• Create project presentation slides.	• Finalized power powerpoint within 6 limit
• Record demo video of working prototype.	• Recorded and edito
• Submit final deliverables and obtain guide approval.	• Obtained final approval and signature from project guide.

Guides Review: Report documentation was
completed successfully
